Title: Testing the site in different browsers

Prerequisite:

1. Browser(Chrome, Firefox, Safari, Opera) is installed.
2. The main page of the site is open

Steps:

1. Open Chrome
2. Go to the main page of the site
3. Check the correctness of display and operation of the site
4. Repeat for other browsers

Expected result: The site is correctly displayed on all browsers (Chrome, Firefox, Safari, Opera)

Actual result: The site is correct and usable in the above browsers

Status: Passed
