ID: TC_006

Title: Checking the correctness of the choice for the age of children

Prerequisite:
1. Selected hotel with possibility of accommodation with children
2. The main page of the website is open

Steps:
1. Go to the main page of the site
2. Select the window for selecting persons
3. Add at least 1 child
4. Click on the window to select the child's age

Expected result: The age selection window should display options for ages from 1 to 13 years, since it says "under 13 years" under the children's selection

Actual result: The age selection window displays options from 0 to 17 years old

Status: Failed
